

Jan. 21 Pisces

Posted on **January 21,2018** by **admin**

the astrological forecast from the Moon Woman. See the entire post [HERE](#)

During a Pisces transit we can really value time spent alone in peaceful solitude so don't judge yourself for needing time apart, this is the inner wise woman wanting to sit with the space of pure potential – to rest in the stillness of Great Mystery. (It is not a sign you will end up living along with 86 cats & whose to say you wouldn't enjoy that anyway!)
